

§ 126.700

the joint venture, not each concern separately, must perform the applicable percentage of work required by § 126.700.

Subpart G—Contract Performance Requirements

§ 126.700 What are the subcontracting percentage requirements under this program?

(a) *Subcontracting percentage requirements.* A qualified HUBZone SBC prime contractor can subcontract part of a HUBZone contract provided:

(1) In the case of a contract for services (except construction), the qualified HUBZone SBC spends at least 50 percent of the cost of the contract performance incurred for personnel on the concern's employees or on the employees of other qualified HUBZone SBCs;

(2) In the case of a contract for general construction, the qualified HUBZone SBC spends at least 15 percent of the cost of contract performance incurred for personnel on the concern's employees or the employees of other qualified HUBZone SBCs;

(3) In the case of a contract for construction by special trade contractors, the qualified HUBZone SBC spends at least 25 percent of the cost of contract performance incurred for personnel on the concerns' employees or the employees of other qualified HUBZone SBCs; and

(4) In the case of a contract for procurement of supplies (other than a procurement from a regular dealer in such supplies) the qualified HUBZone SBC spends at least 50 percent of the manufacturing cost (excluding the cost of materials) on performing the contract in a HUBZone. One or more qualified HUBZone SBCs may combine to meet this subcontracting percentage requirement.

(b) *Definitions.* Many definitions applicable to this section can be found in § 125.6 of this title.

§ 126.701 Can these subcontracting percentage requirements change?

Yes. The Administrator may change the subcontracting percentage requirements if the Administrator determines that such action is necessary to reflect conventional industry practices.

13 CFR Ch. I (1–1–00 Edition)

§ 126.702 How can the subcontracting percentage requirements be changed?

Representatives of a national trade or industry group (as defined by two-digit Major Group industry codes) may request a change in subcontracting percentage requirements for that industry. Changes in subcontracting percentage requirements may be requested only for categories defined by two-digit Major Group industry codes in the Standard Industry Classification (SIC) Code system. SBA will not consider requests from anyone other than a representative of a national trade or industry group or requests for changes for four-digit SIC Code categories.

§ 126.703 What are the procedures for requesting changes in subcontracting percentages?

(a) *Format of request.* There is no prescribed format, but the requester should try to demonstrate to the Administrator that a change in percentage is necessary to reflect conventional industry practices, and should support its request with information including, but not limited to:

(1) Information relative to the economic conditions and structure of the entire national industry;

(2) Market data, technical changes in the industry and industry trends;

(3) Specific reasons and justifications for the change in the subcontracting percentage;

(4) The effect such a change would have on the federal procurement process; and

(5) Information demonstrating how the proposed change would promote the purposes of the HUBZone Program.

(b) *Notice to public.* Upon an adequate preliminary showing to SBA, SBA will publish in the FEDERAL REGISTER a notice of its receipt of a request that it consider a change in the subcontracting percentage requirements for a particular industry for HUBZone contracts. The notice will identify the group making the request, and give the public an opportunity to submit to the Administrator information and arguments in both support and opposition.
